# SafeMode

MEANS KNOW THE CODE

## BE SAFE & HAVE FUN

Mammoth works hard to provide a safe, consistent, and fun mountain experience. We insist upon personal responsibility and respect for others and our environment.

To ensure fun for all, irresponsible behavior such as rude conduct or gestures, defacing property and violating the standards below, is not tolerated and could result in losing your lift privileges. For more information about guest safety or mountain operations, scan the QR code to learn more.

- Ski defensively—expect the unexpected. Reckless or irresponsible skiing or riding will not be tolerated.
- Faster skiing means more risk of injury in collisions.
- Snowmobiles, snowcats, and snowmaking equipment may be encountered at any time.
- Never duck beneath a roped or signed closure.
- Warning—padding, fencing, equipment covers, and other warnings are in place to inform. These warnings are limited in their ability to protect you from injury. It is your responsibility to avoid marked objects and areas.
- Always brake your speed when entering a SLOW ZONE. Match your speed to the flow of traffic.
- Do not cut in front of others in the chairlift line.
- No smoking/vaping in public spaces, including chairlift lines.
- No open containers in lift lines or on chairlifts.
- You will not be permitted to load a lift or ski/ride a trail if you are visibly under the influence of drugs or alcohol.
- Focus on chairlift-loading. Do not be distracted by your mobile phone or electronic device.
- Don't throw snowballs or spray others with snow.
- Refrain from using profanity around others.
- Don't litter.
- Pets and service animals are not permitted on snow at the ski area. Only service animals are permitted inside lodges and restaurants at the ski area.
- Sledding is not allowed.
- The use of infant carriers on lifts and while skiing or riding is strictly prohibited. Each rider on a lift must have their own equipment and ticket or pass, and know how to safely load and unload the lift.

## KNOW THE CODE

Skiing and snowboarding can be enjoyed in many ways. At ski areas, you may see people using alpine skis, snowboards, telemark skis, cross-country skis, and other specialized equipment, such as that used by people with disabilities.

Regardless of how you decide to enjoy the slopes, always show courtesy to others and be aware that there are elements of risk in skiing that common sense and personal awareness can help reduce, but never eliminate. Observe the code listed below, and share with other skiers and riders the responsibility for a great skiing experience. Know and obey the code. It's your responsibility.

- Always stay in control. You must be able to stop or avoid people or objects.
- People ahead or downhill of you have the right-of-way. You must avoid them.
- Stop only where you are visible from above and do not restrict traffic.
- Look uphill and avoid others before starting downhill or entering a trail.
- You must prevent runaway equipment.
- Read and obey all signs, warnings, and hazard markings.
- Keep off closed trails and out of closed areas.
- You must know how to and be able to load, ride, and unload the chairlifts safely. If you need assistance, ask the lift attendant.
- Do not use chairlifts or terrain when impaired by alcohol or drugs.
- If you are involved in a collision or incident, share your contact information with each other and an employee.

### CALIFORNIA STATE PENAL CODE

The following misdemeanors are punishable by a fine of up to \$1,000. Violators will also lose lift privileges.

- Skiing/riding within or entering a CLOSED area. PC 602(r).
- Leaving the accident scene if involved in a collision, except to notify authorities or obtain assistance. PC 653i.
- Skiing/riding without a valid lift ticket or pass.

INFORMATION

Hours of Operation  
LIFT HOURS: 8:30AM – 4PM, DAILY. Weather and conditions permitting. Subject to change during the season. Check out MammothMountain.com or the Ikon Pass App for current hours.

Trail Rating  
Please be advised that trail rating symbols are relative to each ski area's specific terrain. A blue square trail at Mammoth could be easier or more difficult than a blue square trail at a different resort. No matter your ability, when skiing/riding for the first time on any mountain, start on the easiest runs and work your way up to familiarize yourself with the area.

Hazards and obstacles may exist throughout the season. Flags, fencing, poles, signage, and padding are used by the ski area to mark known locations of potential obstacles and hazards. These markers do not guarantee your safety and will not protect you from injury. As part of the Responsibility Code, it is your duty to avoid all obstacles and hazards, including those that are marked.

On-Hill Wayfinding  
Look for signs like the examples to the right that are located around the mountain with arrows indicating the easiest route to Main Lodge, Canyon Lodge, The Village Ski Back Trail, or Eagle Lodge.

In Case Of Emergency, Call 760.934.0611  
If you do not have a phone, notify a lift operator or any uniformed employee of the nature of the injury, as well as a description and location of the injured person.

Ski Patrol  
To report safety issues or emergencies, look for Ski Patrol in the red jackets, any uniformed employee, or call 760.934.0611.

Avalanche Rescue System  
Ski Patrol utilizes standard 457 kHz avalanche transceivers and the RECCO avalanche rescue system to facilitate rapid location of burials. Neither of these systems prevent avalanches, or guarantee location nor survival. To avoid accidents, become informed of potential hazardous areas, use common sense, and always ride with a buddy on powder days.

Hosts  
For assistance and safety tips, look for Mountain Hosts with the yellow patch on their jackets.
